

National Walk to School week! 16-20th May 2022

Next week is National Walk to school week! We would like to see as many of you as possible walking to school each day! Not only is walking great for our well being it also helps the environment. If you can't walk the whole way, maybe you could park and walk part of the way! Every bit helps!

Can you see how many of these items you can spot and tick off on your walk to school? What other items can you see? Please add any photos of you walking to school and what you spot to your Seesaw account.

We will be counting how many children walk to school each day and see at the end of the week which class has walked the most!
